

FAISAL KHAN

Data Analyst | Machine Learning Enthusiast

Ghaziabad, India | +91-9760787206 | faisal143saifi@gmail.com | [GitHub](#) | [LinkedIn](#)

SUMMARY

Data Analyst with hands-on experience in SQL, Python, Excel, and Power BI, and recent hands-on exposure to Machine Learning through a summer internship building and deploying an end-to-end AI application. Skilled in data cleaning, exploratory analysis, dashboard development, and model-driven reporting, with the ability to take a project from raw data through to a deployed, production-ready application.

TECHNICAL SKILLS

Programming: Python, Java, SQL

Machine Learning: scikit-learn, Pandas, NumPy, model evaluation & comparison

Data Analysis: Data Cleaning, EDA, Data Validation, Reporting

Visualization Tools: Power BI, Tableau, Excel, Matplotlib, Seaborn

Backend & Deployment: FastAPI, Render, Vercel, Git, GitHub

Databases: MySQL, Microsoft SQL Server

Tools: VS Code, IntelliJ IDEA, Jupyter Notebook

EXPERIENCE

Machine Learning Intern — TBI-KIET & AI Club, KIET

Jun 2026 – Aug 2026

- Undertook an 8-week Machine Learning Summer Internship at Krishna Path Incubation Society (TBI-KIET), in association with AI Club, KIET — building and deploying an end-to-end AI application from problem identification through to a live, publicly accessible product.
- Designed, trained, and compared multiple ML classification models (Logistic Regression, Random Forest, Gradient Boosting) on a real-world agricultural dataset, selecting the best model based on accuracy and F1-score.
- Developed a REST API backend with FastAPI (automatic docs, input validation) and a responsive frontend, then deployed the complete system to the cloud (Render + Vercel).

PROJECTS

Smart Crop Recommendation & Farm Advisory System | Python, scikit-learn, FastAPI, JavaScript | May – Aug 2026

- Live demo: [Click Here](#)
- Built an AI-powered web app recommending the optimal crop from soil (N, P, K) and climate data, using a Random Forest model achieving 99.5% test accuracy across 22 crop classes.
- Engineered a FastAPI backend with endpoints for prediction, crop advisory lookup, and PDF report generation (ReportLab), and a JavaScript frontend consuming the REST API.
- Deployed the backend on Render and frontend on Vercel, with full version control and documentation on Git Hub.

Customer Behaviour Analysis | Python, SQL, Power BI | May 2026

- Analyzed customer shopping behavior data to identify revenue trends, customer segments, and product performance.
- Cleaned raw data using Python (Pandas) and SQL; created an interactive Power BI dashboard for business reporting.

EDUCATION

Master of Computer Applications — KIET Group of Institutions, Delhi-NCR, Ghaziabad

2025 – Present

Bachelor of Arts — Mahatma Jyotiba Phule Rohilkhand University, Bareilly, UP

2019 – 2022

XII — UP Board

2019

X — UP Board

2017

CERTIFICATIONS

ML Summer Internship — Certificate of Completion — TBI-KIET & AI Club, KIET

Aug 2026

IBM Data Analytics Certificate — Coursera

Apr 2023

Microsoft Power BI Desktop for Business Intelligence — Udemy

Nov 2023

Java Programming Fundamentals — Infosys Springboard

Oct 2025

ACHIEVEMENTS & ACTIVITIES

- Participated in INNOTECH'25, KIET Group of Institutions, demonstrating innovation and teamwork.
- Earned the AMD AI Academy Certification — Hackingly.
- Finished the Digital Application Fundamentals certification — FutureSkills Prime & NASSCOM.
